

Bill Payer Upgrade

Screen Shot Comparisons

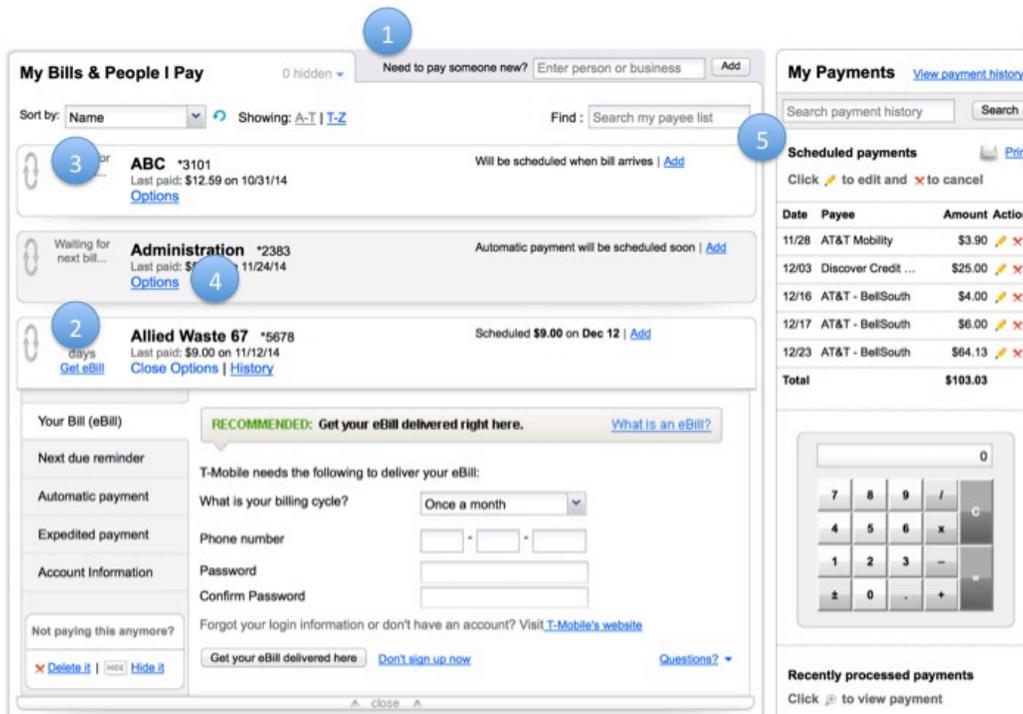

We are pleased to bring you our upgraded Bill Payer service. While the previous and new systems feature much of the same functionality, we hope you enjoy the more streamlined, user-friendly navigation and greater flexibility of the new Bill Payer.

The screen shot examples below provide an at-a-glance comparison of the two systems. Simply match the numbered function on the existing {Bill Pay} screen with its corresponding number on the new {Bill Pay} screen.

First is a quick overview of all features, followed by snapshots of how to add a payee, make a payment, set up an eBill and add a reminder.

New Bill Payer

The screenshot shows the 'My Bills & People I Pay' interface. It includes a search bar for payees, a list of payees with details like name, account number, and last payment date. A 'My Payments' section shows a table of scheduled payments with columns for Date, Payee, Amount, and Action. A calculator is visible below the payments table. A 'Your Bill (eBill)' section contains a form for setting up eBills, including fields for phone number, password, and billing cycle. Numbered callouts (1-5) point to specific features: 1. Add a payee (search bar), 2. Set up an e-Bill (eBill section), 3. Quick view of payees (payee list), 4. Options (Options link), and 5. Scheduled payments (Scheduled payments table).
