

## How to Clear Cache in Google Chrome

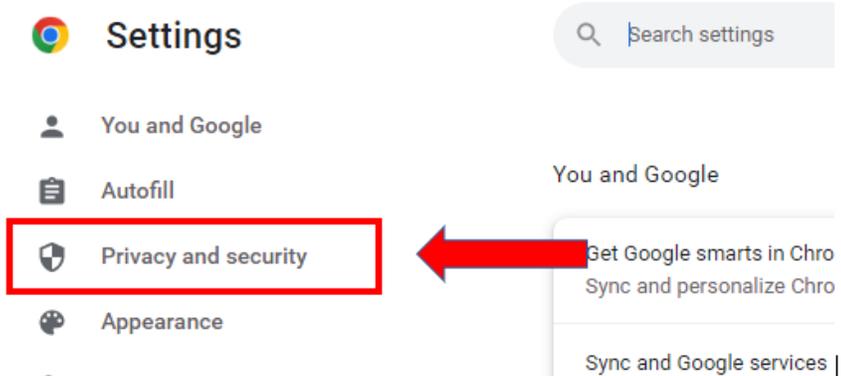

1. Navigate to the three vertical dots located in the upper right corner:

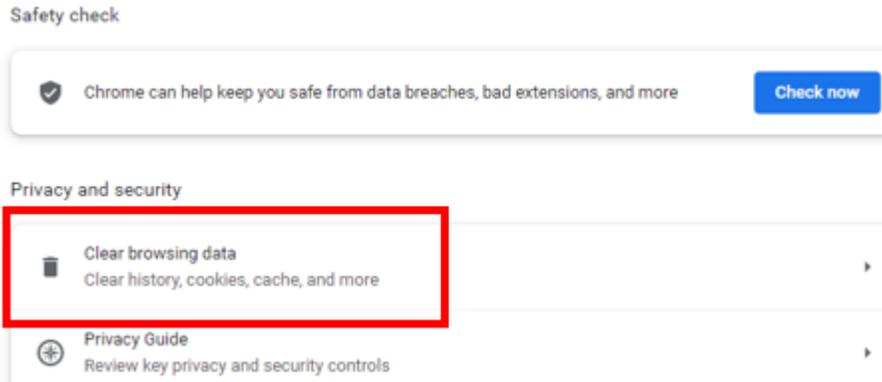

2. Navigate to Settings:

3. In the menu at the left, navigate to Privacy and Security:

4. Click on Clear browsing data:

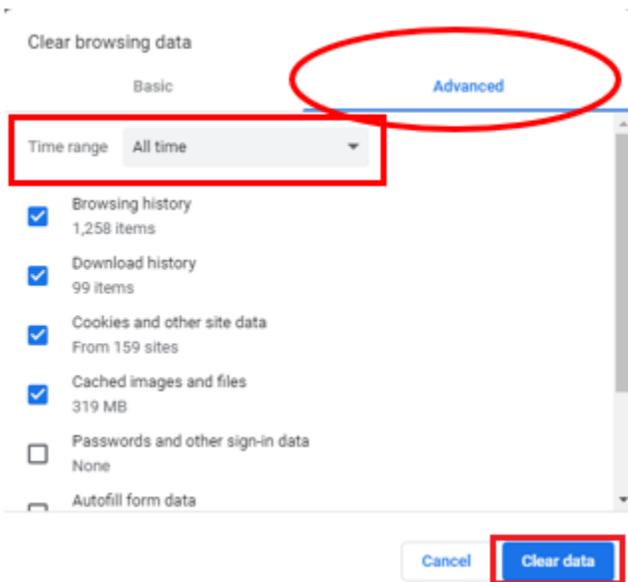

On this screen, ensure it is on the **Advanced tab**

Ensure the Time Range is set to '**All Time**' in the drop-down menu

Ensure the following items are checked off

- **Browsing history**
- **Download history**
- **Cookies and other site data**
- **Cached images and files**

5. Click Clear Data:

NOTE: You will know the process is complete after the screen stops spinning and you are brought back to the settings page.

**!!!! Very Important !!!!**

To complete this process, you must close all windows that are open on the computer.

After all steps are completed, please login by typing in [www.mycccu.com](http://www.mycccu.com) in the address bar. It is very important you do not use a bookmark or favorite link, as that can be corrupted.
